

Remarks

It is the purpose of this Preliminary Amendment to cancel claims 1-25 as they appear in the parent patent application of the present divisional patent application. Claims 1-25 have been allowed in the parent case.

Applicants note that claims 26-37, which remain in the present divisional application, were themselves the subject of a restriction requirement and expect that if the Examiner in the present divisional application is of the same opinion, a restriction requirement will be imposed by the examiner in the present divisional application.

Respectfully Submitted,
